

CAERPHILLY LOCALITY

Neighbourhood Care Networks (NCNs)

There are 3 NCNs in Caerphilly Locality. The approximate boundaries and GP Practices within each one are illustrated in the map below.

The NCN Core Team will be the mechanism through which the NCN plans for primary, community, and where appropriate, social care services are developed. However all Practices, primary care and community providers are part of the collaborative within the NCN area. The role of the Core Team will be facilitative and enabling, bringing all these agents together to respond to local need and national priorities across health and social care.

The make up of the Core Teams in the Caerphilly NCNs is set out below. It should be noted that some of these roles are still in the process of being filled. The information will therefore be updated when these are confirmed.
